Ceremoney Admin Dashboard Guide

Complete Operational Flow for Platform Administrators

SIDEBAR NAVIGATION

- Dashboard
- Orders 5
- Customers
- Content ▾
- Service Location
- Venues
- Users
- Wedding Projects ▾
- Appearance ▾
- Settings ▾

VERSION	PLATFORM	ACCESS LEVEL	ADMIN URL
1.0 — 2026	Ceremoney SaaS	Admin & Above	ceremoney.com/admin

Table of Contents

10 modules, complete operational flow for every sidebar item

1 **Dashboard**
KPIs, Stats, Quick Actions, Live Feed

2 **Orders**
List, Detail, Edit, Refund, Invoice

3 **Customers**
Profile, Orders, Tickets, Actions

4 **Content**
Blog, FAQ, Legal, Testimonials, Ticker

5 **Service Location**
Place, Service, Location options

6 **Venues**
Add, Edit, Feature, Activate venues

7 **Users & Permissions**
Roles, Staff, Permission Matrix

8 **Wedding Projects**
Monitor all active event projects

9 **Appearance**
Page, Header, Menu, Footer, Themes

10 **Settings**
Business, Payments, Email, Plugins, Data

How to use this guide: Each section maps to one sidebar item in the admin dashboard. For every section you will find: *what the page shows*, *what actions are available*, *step-by-step workflows*, and *important notes*. Follow the numbered steps exactly to manage the platform without prior training.

SECTION 01

/admin

🏠 Dashboard

Platform health at a glance. First screen after login.

What You See Immediately After Login

💰	📦	👥
$12,450	**48**	**156**
Total Revenue	Total Orders	New Customers

Each stat card shows a percentage change vs last month. Red = decline, Green = growth. Cards auto-refresh every 60 seconds.

Quick Actions — Most Used Shortcuts

BUTTON	WHAT IT DOES	WHEN TO USE
Pending Orders (3)	Goes to Orders filtered by "Pending" status	Every morning — process overnight orders
Open Tickets (5)	Goes to Tickets list — open issues	Check throughout the day

Recent Orders (Bottom Left)

Shows the last 4 orders placed. Each row contains: Order ID, Status badge, Customer name, Amount, Date.

> 💡 Click **"View All →"** to go to the full orders list. Click any Order ID to open that order's detail page directly.

Recent Tickets (Bottom Right)

Shows the last 3 open support tickets. Each row: Subject, Ticket ID, Customer name, Priority badge.

Priority colors: High Medium Low

Activity Feed (Bottom)

Live log of last 5 actions on the platform — new orders placed, new customers registered, tickets opened. Useful for monitoring activity without checking each module individually.

SECTION 02

/admin/orders

📦 Orders

Manage all customer orders — view, filter, edit, refund, and generate invoices.

Orders List Page — What You See

The sidebar badge 5 shows how many orders need attention (pending).

Status Summary Cards (Top)

CARD	MEANING
Pending	Payment not yet received
Processing	Payment done, being fulfilled
In Progress	Service delivery started
Completed	Fully delivered

Filter Options

- Search by Order ID, customer name, or email
- Filter by Status dropdown
- Filter by Payment Status
- Results paginate: 10 / 20 / 50 / 100 per page

Orders Table — Column by Column

COLUMN	WHAT IT SHOWS	CAN YOU EDIT?
☐ Checkbox	Select for bulk action	—
Order ID + Date	CRM-2025-ABC123 / Mar 10, 2025	No (auto-generated)
Customer	Full name + email	No (click to view profile)
Service + Package	Wedding Planning / Premium	No
Amount	kr3,499 (in order currency)	Only via Edit page
Status	Inline dropdown — change directly in table	**Yes — inline**
Payment Status	Paid / Failed / Pending badge	No
Actions ⋮	View, Edit, Send Email	—

Bulk Actions (Select Multiple Orders)

Check multiple order rows → a bulk action bar appears at the top.

1. Check the header checkbox to select all visible orders, or check individually
2. Bulk action bar appears: **Mark as Processing** / **Mark as Completed** / **Mark as Cancelled** / **Delete**
3. Click your action → confirmation dialog → confirm → all selected orders update

> ⚠️ Bulk Delete is permanent. Use only when orders are truly invalid or test data.

Order Detail Page — Full Walkthrough

Click **View** on any order row → opens /admin/orders/[id]

Header Action Buttons

BUTTON	WHAT HAPPENS
📧 Email Customer	Dialog opens — type message — Send. Customer receives email immediately.
⬇ Download Invoice	PDF invoice generates with Org.nr, VAT (25% for SE), invoice number. Downloads to your computer.
✏️ Edit	Opens edit page — adjust quantities, apply discount, change status.
Cancel Order	Confirmation dialog → status changes to CANCELLED. Send refund separately if needed.
Delete Order	Permanent deletion. Only use for test/invalid orders.

Order Progress Timeline

```
✅ Order Placed → ✅ Payment Confirmed → 🔄 Processing → ⬜ In Progress
→ ⬜ Completed

Each step auto-marks when status changes. You can see exactly where each order
stands.
```

Right Sidebar — Payment & Quick Actions

SECTION	WHAT TO DO HERE
Payment Info	Change Payment Status via dropdown. See Transaction ID for Stripe reference.
Quick Actions	Send Status Update email, Generate Invoice, Copy Payment Link, Resend Documents
Internal Notes	Write private notes for your team — customer cannot see these.

Order Status — Full Reference

STATUS	MEANING	ADMIN ACTION REQUIRED
PENDING	Awaiting payment	Monitor — send reminder if > 1 hour
PROCESSING	Payment received, being fulfilled	Fulfill service, update when done
IN PROGRESS	Service delivery started	Update when completed
COMPLETED	Fully delivered	None — archive
CANCELLED	Voided before completion	Issue refund if payment taken
REFUNDED	Money returned to customer	None — Stripe handles disbursement

SECTION 03

/admin/customers

👥 Customers

View and manage all registered customers — profiles, orders, tickets, and account actions.

Customer List Page

Stats Cards (Top)

CARD	SHOWS
Total Customers	All registered accounts
Active	Accounts that can log in
Total Revenue	Sum of all customer spending
Avg Order Value	Total revenue ÷ orders

Filter Options

- Search by name or email
- Status: All / Active / Inactive
- Country dropdown filter
- Export button — downloads CSV of all customers

Customer Row Actions (Actions ⋮ dropdown)

ACTION	WHAT IT DOES
View Profile	Opens full customer detail page
Edit	Edit name, email, phone, country directly
Send Email	Opens email dialog — send direct message to this customer
Disable Account	Customer can no longer log in. Data preserved. Toggle back to re-enable.

Customer Detail Page — Tabs

Click "View Profile" on any row → opens /admin/customers/[id]. Header shows name, avatar, status badge.

TAB	WHAT YOU SEE	WHAT YOU CAN DO
Orders	All orders by this customer: ID, Service, Amount, Status, Date	Click Order ID → opens order detail

Documents	All uploaded documents: Name, Type, Date, Status	Download button per document
Tickets	All support tickets filed: ID, Subject, Date, Status	Click Ticket ID → opens ticket detail
Activity	Timeline of all account actions with timestamps	Read-only audit trail

Right Sidebar — Quick Actions

BUTTON	ACTION
Send Email	Opens email compose dialog
Reset Password	Sends password reset link to customer's email. Link expires in 24 hours.
Create Ticket	Opens new ticket on behalf of this customer
Disable Account	Blocks login — use for violations or GDPR requests

SECTION 04

/admin/content

📝 Content

Manage all public-facing content: blog, FAQs, legal pages, testimonials, and announcement ticker.

Blog Posts /admin/content/blog

Status Filter Tabs

Click a tab to filter: All Posts Published Drafts Archived

Row Actions

ICON	ACTION
🔗 View	Open on public site (published only)
✏️ Edit	Opens full post editor
Status dropdown	Change status inline
🗑️ Delete	Confirmation → permanent delete

Creating a New Post — Steps

1. Click "+ New Post" (top right)
2. Write title — slug auto-generates (editable)
3. Write content in rich text editor
4. Upload featured image
5. Fill SEO tab: meta title, description, og:image
6. Assign category, add tags
7. Publish now OR set schedule date/time

FAQs /admin/content/faq

FAQs are grouped by category and shown on marketing pages.

Category Filter Tabs

All | General | Pricing & Payments | International | Account & Support

Per FAQ Row Actions

ICON	ACTION
👁 Toggle	Show or hide from public site
✏️ Edit	Edit question + answer
🗑 Delete	Permanent delete

Add FAQ — Dialog Fields

- Category — dropdown
- Question — text input
- Answer — rich text editor (bold, italic, links, lists, headings)
- Sort Order — controls display position
- Active toggle — on = visible on site

Legal Pages `/admin/content/legal`

> ⚠️ An **amber alert bar** at the top shows which required legal pages are missing (Terms, Privacy, Refund Policy, Disclaimer). Click "Create" next to each missing page to add it.

REQUIRED PAGE	SLUG	REVIEW FREQUENCY
Terms of Service	`/terms-of-service`	Annually
Privacy Policy	`/privacy-policy`	Annually + GDPR updates
Refund Policy	`/refund-policy`	Quarterly
Disclaimer	`/disclaimer`	Annually

Version number auto-increments on each save. Full edit history is maintained.

Testimonials `/admin/content/testimonials`

Grid View

Shows as 3-column grid. Each card has: Avatar, Name, Company, Star rating (1–5), Quote, Tag badges.

Add Testimonial — Fields

- Type: Photo or Video
- Name, Company, Country

Card Actions

ACTION	RESULT
Hide/Show	Remove/restore from public site
Edit	Opens edit dialog
Delete	Permanent removal

- ☐ Star rating (click stars)
- ☐ Photo: Avatar upload
- ☐ Video: Video URL + Thumbnail URL
- ☐ Testimonial text
- ☐ Tags (multi-select)
- ☐ Active toggle

Ticker / Announcement Bar

/admin/content/ticker

The scrolling bar at the very top of your public website. Useful for promotions, announcements, and urgent notices.

CONTROL	WHAT IT DOES
Ticker name	Internal label — not shown publicly
Active toggle	ON = this ticker shows on the public site
Expand button	Shows all ticker items inside this group
Rich Text Editor (per item)	Bold, italic, text color, link, image — full formatting
Link URL + New tab checkbox	Make ticker text clickable with optional external link
↑↓ Move up/down	Change order items scroll in
+ Add Item	Add another scrolling text segment
💾 Save	Save all changes — updates live on site

SECTION 05

/admin/service-locations

📍 Service Location

Manage the dropdown options shown in the homepage search bar.

What This Controls

💡 This page controls exactly what options customers see when they search on the homepage. The three columns — Place, Service, Location — fill the three homepage search dropdowns.

Three Column Layout

Place

Cities or regions where service is offered

Examples: Stockholm, Gothenburg, Malmö

Service

Types of services offered

Examples: Wedding Planning, Photography, Catering

Location (Tabbed)

Sweden tab and International tab

Examples: SE: Uppsala | INT: London

How to Add / Edit / Delete an Option

1. Type the name in the "Add" input field at the top of the column
2. Optionally add an icon name (Lucide icon library)
3. Click the "Add" button — item appears in the list below
4. To edit an item's icon: click the icon button to the left of the item name
5. To delete: hover over the item — an ✕ button appears on the right — click it
6. If a column has more than 5 items, a search box appears to filter the list

SECTION 06

/admin/venues

🏛️ Venues

Add and manage event venues listed on the platform — wedding halls, party venues, specialty spaces.

Tabs — Venue Categories

Three tabs filter venues by type. Each tab shows a count badge.

TAB	VENUE TYPES INCLUDED
Wedding Venues	Banquet Hall, Garden, Mansion, Winery, Beach Venue
Party & Event Venues	Conference Hall, Rooftop, Clubhouse, Studio
Specialty Venues	Historic Building, Art Gallery, Private Villa

Adding a New Venue

A collapsible "Add Venue" form sits at the top of each tab.

FIELD	EXAMPLE	NOTES
Venue Name *	Grand Ballroom	Required
Type	Banquet Hall	Category-specific dropdown
Location	Stockholm, SE	City, Country format
Price	15000	Number only, set currency in Settings
Badge Text	Popular	Short label shown on card
Badge Color	Purple	None / Purple(Popular) / Orange(Featured) / Green(New)
Tags	Up to 300, Indoor	Comma-separated — shown as pills

Managing Existing Venues

ACTION	HOW	RESULT
Edit venue details	Hover card → inline fields appear	Type directly, change is saved on blur

Feature a venue	Click ★ Feature button	Amber "Featured" badge appears — shows first in listings
Unfeature	Click ☆ again	Removes featured badge and priority listing
Activate / Deactivate	Toggle button on card	Inactive venues hidden from public site
Delete	Hover → ✕ appears top-right of card	Permanent — confirmation dialog

SECTION 07

/admin/users

Users & Permissions

Manage all admin staff accounts and configure what each role can access.

User List Page

Stats Cards

Total Users	All accounts (admin + customers)
Active (green)	Can currently log in
Inactive (red)	Disabled accounts
Admins (red badge)	Staff with admin-level access

Filter Options

- Search by name or email
- Role: All / Admin / Content Manager / Sales Agent / Support Agent / Customer
- Status: All / Active / Inactive

User Row Actions (Actions ⋮ dropdown)

ACTION	WHAT IT DOES
Change Role	Submenu lists all roles. Current role has ✓ checkmark. Click another role to switch immediately.
Disable User	Blocks login. Shown in red. Toggle back to Enable anytime.
Enable User	Restores login access. Shown in green.

> 💡 Role changes take effect immediately. The user's next page load will reflect their new permissions with no additional steps needed.

Admin Staff Roles — What Each Can Do

ROLE	CAN ACCESS	CANNOT ACCESS
Admin	Orders, Customers, Vendors, Leads, Tickets, Content, Marketing, Appearance, most Settings	Plugin management, Permission configuration

Support Agent	Tickets (full), Live Chat, Canned Responses, view-only Orders	Customers (edit), Settings, Content, Marketing
Sales Agent	Leads (full), Vendors (approve/reject), Orders (view), Campaigns	Settings, Content editing, User management
Content Manager	Blog, FAQs, Legal Pages, Testimonials, Ticker, Appearance	Orders, Customers, Settings, Financial data

Role Permissions Page

/admin/users/permissions

Click "Role Permissions" button (top-right of Users page) to access granular permission control.

1. Select the role tab: Content Manager / Sales Agent / Support Agent
2. Each category (e.g., "Content Management") shows a checkbox list of specific permissions
3. Check/uncheck individual permissions. "Select All / Deselect All" button per category for bulk toggle.
4. Orange dot badge = unsaved changes. Click **"Save Changes"** to apply.
5. Changes apply to ALL users with that role immediately.

⚠️ **Admin** and **Customer** roles are locked — they cannot be edited from this page.

SECTION 08

/admin/planner

💍 Wedding Projects

Monitor all active customer wedding planning projects across the platform.

What You See

This is a **read-only monitoring view**. Admins do not edit customer projects here — only observe platform-wide usage.

COLUMN	SHOWS
Project Title	"Anna & Erik Wedding" — the couple's project name
Owner	Customer account name linked to this project
Event Date	The wedding / event date set by customer
Guests	Number of guests added to guest list
Plan Tier	Premium or Elite — their subscription
Status	Active / Completed / Draft

Stats Summary Cards

Cards at the top show: Total Projects, Active (event date upcoming), Completed (past events), Drafts (not yet configured).

Why Monitor This?

- Track platform adoption — are Premium/Elite customers actually using the planner?
- Identify customers who signed up but never configured their project (→ trigger onboarding email)
- Understand peak event dates for server capacity planning
- Verify Elite plan customers are using collaboration features

SECTION 09

/admin/appearance

🎨 Appearance

Control the visual design of the entire public website — pages, header, menu, footer, and themes.

Page Builder

/admin/appearance/landing-page

Visual drag-and-drop builder for marketing landing pages. No coding needed.

Three-Panel Layout

PANEL	PURPOSE
Left — Block Library	Drag blocks from here: Hero, Features, Pricing, Testimonials, FAQ, CTA, Gallery, Stats
Center — Canvas	Live preview. Click a block to select. Drag to reorder.
Right — Settings	Edit selected block's content, colors, layout

Top Bar Actions

1. Toggle Desktop / Tablet / Mobile preview
2. Undo / Redo buttons
3. Preview button → opens in new tab
4. Save Draft → saves without publishing
5. Publish → makes page live immediately

Header Builder

/admin/appearance/header

⚠️ Header changes affect the public site immediately on save. Always preview on mobile before saving.

Layout Selector (5 options)

Default	Logo left, Nav center, CTA right
Centered	Logo center, Nav below
Split	Logo center, Nav split on both sides
Minimal	Logo left, Hamburger icon right
Mega	Full-width mega menu style

Accordion Sections

- ☐ Logo Settings — upload logo, dark logo, favicon, show/hide business name
- ☐ Navigation — mega menu toggle, mobile options
- ☐ CTA Buttons — add/edit buttons with text, URL, style (Default / Outline / Ghost)
- ☐ Top Bar — announcement text, enable/disable, custom style

---

Menu Builder `/admin/appearance/header/menu`

Manage the main navigation menu items, order, and mega menu structure.

WHAT YOU CAN DO	HOW
Reorder menu items	Drag ⠿ handle left of each item
Add child items (dropdown)	Click ➕ on parent item → creates nested submenu
Enable Mega Menu	Edit item → toggle "Mega Menu" ON → set column count (2–5)
Show/Hide item	Toggle 👁 Eye icon — hidden items not shown in nav
Open in new tab	Edit item → Link Target → "New Tab"
Add badge to item	Edit item → Badge Text field (e.g., "New", "Hot")
Edit gallery/forum menus	Special editor icons on specific items (🖼️ for gallery, ⊞ for forums)

Footer Builder `/admin/appearance/footer`

Layout Options (8)

Multi-Column, Centered, Minimal, Mega, Stacked, Asymmetric, Mega Plus, App Focused

Widget Types Available

- ☐ Brand — logo + tagline

3 Tabs

Widgets	Add/manage content blocks in footer columns
Styling	Colors, fonts, spacing, shadows, animations
Content	Bottom bar, copyright text, bottom links

- Links — custom link list
- Contact — email, phone, address
- Social — social media icons
- Text — free text / HTML
- Recent Posts — auto blog list
- Services — auto service list
- Newsletter — email signup form
- Button — CTA button
- Custom HTML — raw HTML

Theme Gallery `/admin/appearance/themes`

🚨 Activating a theme changes the public website immediately. Always preview before activating. Choose "Apply Colors Only" if you only want to update the color scheme without demo content.

ACTION	HOW	EFFECT
Preview a theme	Hover card to see description and services count	No change to live site
Activate with Demo Content	Click Activate → confirm dialog → "Activate with Demo Content"	Theme + sample pages/content apply to live site
Apply Colors Only	Click Activate → confirm dialog → "Apply Colors Only"	Only color scheme changes — existing content kept
Customize active theme	Click "Customize" on active theme card	Opens Theme Customizer
Save current design to theme	Click "Save Current Design to Theme" on active theme	Saves your custom settings back to the theme template

Theme Customizer — Two Tabs

TAB	CONTROLS

Colors	8 color groups (Base, Primary, Secondary, Muted, Accent, Card, Destructive, Borders). Toggle Light/Dark mode separately.
Fonts	Heading font, Body font, Accent font — all from Google Fonts. Live preview updates instantly.

SECTION 10

/admin/settings

⚙️ Settings

Platform-wide configuration — business info, payments, email, storage, tracking, plugins, and data.

Business Settings /admin/settings

Default settings page. All fields here appear on the public website.

SECTION	FIELDS
General Info	Business Name, Tagline, Description
Header Display	Show Logo toggle, Show Business Name toggle
Logo (Light)	Upload image + Logo Text fallback (2 chars max)
Logo (Dark)	Upload image for dark backgrounds
Favicon	Upload 16×16px browser tab icon
Contact Info	Contact Email, Support Email, Phone
Business Address	Address, City, State, ZIP, Country
Currency	Default currency dropdown (SEK, USD, EUR...)
Social Media	Facebook, Twitter/X, LinkedIn, Instagram, YouTube, TikTok URLs

✅ **Always click "Save Changes"** after editing. Changes update the public site within 60 seconds after save due to CDN caching.

Payment Settings /admin/settings/payments

🔒 Always use **Test Mode** when setting up. Switch to Live Mode only after successful test transaction. Never share API keys.

Stripe Setup Steps

1. Toggle "Enable Stripe" ON
2. Set Mode to "Test Mode"
3. Paste Publishable Key (pk_test_...)
4. Paste Secret Key (sk_test_...)
5. Paste Webhook Secret (whsec_...)
6. Copy the Webhook URL shown → paste in Stripe Dashboard
7. Click "Test Connection" → should show green Connected
8. When ready for live: switch Mode to "Live Mode" → replace keys

PayPal Setup Steps

1. Toggle "Enable PayPal" ON
2. Set Mode to "Sandbox Mode"
3. Paste Client ID and Client Secret
4. Paste Webhook ID
5. Copy Webhook URL → paste in PayPal Developer Dashboard
6. Click "Test Connection"

Email Settings `/admin/settings/email`

Configure SMTP server for all transactional emails (orders, tickets, password resets).

SMTP Configuration

FIELD	EXAMPLE
SMTP Host	smtp.gmail.com
SMTP Port	587 (TLS) or 465 (SSL)
SSL/TLS toggle	ON for Gmail
Username	your@gmail.com
Password	Gmail App Password (not your login password)

Notification Toggles

- ☐ Admin: New Order Notification
- ☐ Customer: Order Placed confirmation
- ☐ Customer: Order Confirmed
- ☐ Customer: Order Processing update
- ☐ Customer: Order Completed
- ☐ Payment Successful confirmation
- ☐ Payment Failed alert

After filling fields: click "Send Test Email" → check inbox to confirm delivery.

Media Storage /admin/settings/media-storage

Connect Cloudflare R2 storage for all image and file uploads.

FIELD	WHERE TO FIND IT
Account ID	Cloudflare Dashboard → R2 → Overview
Access Key ID	R2 → Manage R2 API Tokens
Secret Access Key	R2 → Manage R2 API Tokens (shown once)
Bucket Name	R2 → Your bucket name
Public URL	R2 bucket → Settings → Custom Domain

After entering all fields: click "Test Connection". Green = working. If red, re-check the Access Key and Secret Key.

Tracking /admin/settings/tracking

Google Tag Manager

Container ID: GTM-XXXXXX
Toggle: Form tracking, Page view tracking

Facebook Pixel

Pixel ID
Toggle: Lead, Page view, View content tracking

Google Ads

Conversion ID + Label + Default Value

Plugins /admin/settings/plugins

STATUS	MEANING	ACTION
Active	Plugin running normally	Disable or go to Settings
Disabled	Installed but turned off	Enable to activate

Installed	Uploaded but needs license	Click "Activate License" → enter license key
Error	Plugin failed to load	Read error message → check compatibility

Data Management /admin/settings/data

🚨 **Reset Data is irreversible.** It deletes services, pages, blogs, FAQs, testimonials, and settings. Customer accounts, orders, invoices, and leads are preserved. Always export a backup first.

ACTION	HOW	WHAT IT INCLUDES
Export Data	Click "Download Export File"	JSON: services, pages, blogs, FAQs, testimonials, settings
Import Data	Upload JSON → preview count → confirm Import	Same categories as export
Reset Data	Click Reset → type "RESET" in confirmation box	Deletes all content (NOT users/orders/leads)

QUICK REFERENCE — ALL ADMIN URLS

Dashboard `/admin`	Orders `/admin/orders`	Customers `/admin/customers`
Blog Posts `/admin/content/blog`	Blog Categories `/admin/content/blog-categories`	FAQs `/admin/content/faq`
Legal Pages `/admin/content/legal`	Testimonials `/admin/content/testimonials`	Ticker / Announcements `/admin/content/ticker`
Service Locations `/admin/service-locations`	Venues `/admin/venues`	Users `/admin/users`
Role Permissions `/admin/users/permissions`	Wedding Projects `/admin/planner`	Page Builder `/admin/appearance/landing-page`
Header Builder `/admin/appearance/header`	Menu Builder `/admin/appearance/header/menu`	Footer Builder `/admin/appearance/footer`
Theme Gallery `/admin/appearance/themes`	Theme Customize `/admin/appearance/themes/customize`	Business Settings `/admin/settings`
Payment Settings `/admin/settings/payments`	Email Settings `/admin/settings/email`	Media Storage `/admin/settings/media-storage`
Tracking / Analytics `/admin/settings/tracking`	Plugins `/admin/settings/plugins`	Data Export / Import `/admin/settings/data`

📋 Daily Admin Checklist

Run through this every morning. Takes 10–15 minutes.

Morning (Start of Day)

During Day

- ☐ Monitor live chat queue

End of Day

- ☐ Check dashboard stat cards for anomalies
- ☐ Process overnight pending orders
- ☐ Resolve any FAILED payment orders
- ☐ Review urgent/high priority tickets
- ☐ Check pending vendor applications
- ☐ Respond to open tickets (<4 hrs)
- ☐ Process incoming orders
- ☐ Review any new vendor signups
- ☐ Check email delivery health
- ☐ Ensure no tickets older than 8 hrs unresolved
- ☐ Review today's orders summary
- ☐ Check Vercel deployment logs for errors
- ☐ Review any scheduled campaigns for tomorrow
- ☐ Export daily report if needed
